## magic-pak™ – All-in-One HVAC Systems

To meet the new DOE regulations for *minimum efficiency* required for all single packaged vertical units, Allied-Air Enterprises has redesigned the M-Series Magic-Pak offering:

- 5-year limited warranty on all parts
- Top supply and return on all models
- Factory installed float switch
- Anti-microbial drain pan
- 20-year warranty on stainless-steel heat exchanger
- Proudly manufactured in the U.S. since 1964
- Allied is a Lennox International Inc. Company

The new smaller model Magic-Pak® systems range from 15,000 to 60,000 BTU/HR heating inputs, and cooling with capacities from ¼ Ton to 3 Ton, to meet the job you need!

Magic-Pak M-Series™ heating and cooling units are the ideal choice for apartments, condominiums, and other multifamily buildings.

Design certified as a direct vent appliance, the Magic-Pak® reduces installation costs for builders and improves the building's appearance without outside condensers and external refrigerant lines.

Tenants love that they get to control their own indoor comfort year-round.

Pick up the phone now and give us a call for a quote on your multi-unit project or for additional information - 860-528-0081. Ask us about an installation near you.

**CONCORD**

## ANNOUNCEMENT

The Concord® mini-split heat pump is an Allied Commercial product that both heats and cools and is ductless!

Perfect for the home that doesn't have space for ducts to carry the cooled and heated air throughout the house. Also perfect for additions, sunrooms, remodeled spaces or

extensions where ducting would be difficult or expensive to add to an existing system.

With no ductwork and no hassle, they're quick to install. You can count on us for inventory, training and technical support. They come with a warranty owners will love - **up to 12 years on residential applications.**

Single zone or multi zone, the Allied Commercial mini-split is a solid choice. Reliable, efficient and affordable, the mini-split will also add comfort to a commercial space cut off from the current HVAC system's heating and cooling supply such as a breakroom, conference room or lobby.

- Quickly installs with minimal disruption
- Runs quietly and blends with any décor
- Provides efficient spot heating and cooling
- May qualify for federal tax incentives and local utility rebates

Outdoor unit

Choose from a wall-mounted indoor unit, ceiling cassette indoor unit or a ducted indoor unit. There are options that will fit the criteria you need to provide comfort conditioning everywhere you need it.
