The Anchorage in Fairfield

was created to bring a new style of living to Fairfield, CT. Built by an award-winning team of architects, designers and developers, this modern luxury apartment community with secure garage-to-floor access and resident garden area with planter beds is each apartment dweller's resident haven.

Indoor comfort is provided for the 100 apartments at the Anchorage, 333 Unguowa Rd by Concord® 92% high-efficient gas furnaces and 13 SEER Concord® air conditioning split systems.

Using up to 1/3 less energy than a fixed blower, the constant torque motor on the furnace produces consistent air flow and even temperatures to provide everyday savings on your energy bill.

Upflow to horizontal conversion, with no modifications, Concord® gas furnaces offer consistent comfort and a promise of quality and reliability with a 10 year limited parts warranty and lifetime heat exchanger warranty.

Its compact 33" height offers ease of installation and rigorous run testing of each furnace at the factory ensures reliable performance in the home.

SEER ratings measure the system's performance. The higher the rating the greater the efficiency and the greater the savings on energy bills year after year.

Concord's® high-efficient air conditioning performance and reliability is right there, ready to go to work. It's factory tested to ensure that it will last. All your heating and cooling needs are answered, making it the right choice, right now!

Contemporary design at the Anchorage, paired with dependable heating and cooling indoor comfort year-round has brought a new style of living to Fairfield and everything for comfortable living has been taken care of.

Call for additional information or assistance today, 860-528-0081, regarding rebates available through 12/31/2024. Visit us on the web for updates and changes in HVAC equipment and code compliance - www.clover-corporation.com.
